

eWallets

Computop provides more than 150 payment methods including amazon pay. Roughly 300 million customer accounts and more than US\$100 billion in revenue (2015) make Amazon the world's biggest online retailer. By integrating 'Login and Pay with Amazon', other retailers can also benefit from this customer base. With one click of the Amazon button in the

shopping basket, the buyer logs in to their Amazon account, proves their identity, and completes the payment with the underlying payment solution. The retailer receives a confirmation of payment immediately and can arrange delivery to the address stored with Amazon.
