

Online Bank Transfer

Covering between 80% and nearly 100% of banks, TrustPay is a very well-established payment solution in the countries where it is available, enabling access to up to 200 million consumers. Even in Eastern European markets, nearly two thirds of which are dominated by Cash On Delivery, TrustPay enables

retailers to offer a convenient alternative. It even allays the fears many Eastern European people have regarding the use of personal data when making card payments, as TrustPay does not save account numbers or PIN details.

TRUSTPAY FEATURES
