Computop provides more than 150 payment methods including iDEAL. With iDEAL, you are adding the most popular payment method in the Netherlands to your portfolio. This online transfer method is used for around 60% of all e-commerce transactions there.

The iDEAL app and straightforward use without registration have helped to achieve this level of popularity. In 2014, more than one fifth of iDEAL payments were already being used for cross-border transactions.
